

HOW TO INSTALL SPSS 16.0 FOR WINDOWS NETWORK USER LICENSE OR COMMUTER LICENSE

SPSS 16.0 for Windows Network User License Installation

- Log in with your AD admin credentials
- Software location:
 - XS1\UCTOOLS\Other\Statistics\SPSS16(JW)\SPSS 16 for Windows\
- Run Setup.exe
- Select Network User License Installation
- For License Manager, type: LM2
- Click on Set
- Click on Next
- Finish install then add patches in Patches folder sequentially
- SPSS 16.0 Network User License is now installed and updated.
- Run SPSS 16.0 to test “SPSS Processor is ready”
- Continue to install a commuter license or exit to finish.

SPSS 16.0 for Windows Commuter License

- SPSS 16.0 Network User License must be installed before proceeding
- If a previous version of SPSS was uninstalled, double-click on SPSScommute.reg
 - XS1\UCTOOLS\Other\Statistics\SPSS16(JW)\SPSScommute.reg
 - This will change the value of SPSScommute MAXLIFE to 30 (earlier SPSS versions were set to 180)
- Change System Variable for SPSS_COMMUTE_MAX_LIFE in Environment Variables
 - Start, right-click My Computer, select Properties
 - Select Advanced tab then Environment Variables
 - Change Value from 7 to **30** (SPSS commuter license maximum number of days)
 - Click on OK.

HOW TO INSTALL SPSS 16.0 FOR WINDOWS NETWORK USER LICENSE OR COMMUTER LICENSE
